Group of Companies

WE'RE A COMPANY THAT STARTS WITH LOGISTICS, BUT ENDS WITH RELATIONSHIPS.

We are Interway logistics – Malaysia's premier logistics company and we were founded on trust and built on excellence. We began more than 50 years ago and are growing from strength to strength in the logistics industry.

Interway logistics offers a holistic service that comprises of logistics consultations and customised solutions such as: freight forwarding, haulage, trucking, warehousing, freight handling, heavy-lifting services, factory relocations, bespoke insurance arrangements and many more.

We have 6 offices currently located in the commercial and industrial centres of Malaysia and we are planning to expand in the coming years.

PORT KLANG | JOHOR | PENANG
SEREMBAN | BUKIT JELUTONG | KUANTAN

We cover all the major routes of Peninsular Malaysia.

Office Team Customer Service

Our efficient staff and highly-trained management team are always motivated to provide value-for-money services. Today, we serve both international and local companies with a large worldwide network that counts on us for reliable services.

Freight Forwarding

By land

By sea

By air

Our freight forwarding services include land, sea and air freight. As a complete freight forwarding service, we are able to provide flexible arrangements and customised solutions from Full Container Loads (FCL) to Loose Container Loads (LCL), bonded and non-bonded services, etc.

Interway serves clients with a broad range of customer solutions that are designed and combined using the specific advantages of each type of transportation. We can serve our clients via conventional rail to intermodal transportation and special transportations. We can also move standard loads to high-value or oversized cargo anywhere.

Customs Clearance Services

Our customs brokerage and forwarding clearance services uses technology such as electronic data interchange and electronic fund transfers to make transactions easier. We also help our clients attend customs examinations and handle various enquiries.

Warehouses and Open Yards

Interway's warehouses and open yards are strategically located across Peninsular Malaysia, at ports and distribution hubs. Each warehouse has high-end Warehouse Management Systems to handle a wide-range of handling requests – from heavy lifting to relabeling, racking, floor storage and even reworking of cargo.

With 8 modern and self-managed warehouses including a food grade warehouse, we offer world-class warehouse handling services. All our warehouse comes with dock levelers to allow easy loading and unloading of cargo from trucks or containers from various height. Spanning over 1,000,000 square feet, our warehouses are complete, comprehensive and well-equipped. Your goods can be stored and tracked securely ensuring a smooth transit.

All of our warehouses are close to major transportation hubs and are easily accessible via highways and cities in Peninsular Malaysia.

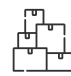

3PL Warehouse

Our warehouse management system (WMS) has the latest technological updates to ensure that your cargo is easily located and properly-stored in the selective racking system or on the ground within the warehouse. With the latest WMS system, we are able to cater to your FIFO, FILO, LIFO and LILO requirements.

FIFO = First in, First Out | **FILO = First in, Last Out**
LIFO = Last in, First Out | **LILO = Last in, Last Out**

For our food grade warehouse, we have additional services such as bird sonar, pest-control, PVC strip curtains to ensure your cargo is free from pests. We only utilise fully-electric forklifts to ensure that the food cargo stored is free from contaminants.

Workshop and Maintenance

In order to keep our vehicles and machineries in optimum working condition, we have our very own service workshops for maintenance and repair. We carry a wide range of spare parts that are readily available.

Innovative machinery such as overhead cranes help to facilitate repairs and maintenance in a safe and effective manner.

Our vehicles are checked and approved by JPJ (Jabatan Pengangkutan Jalan / Land Transport Authority) and Puspakom to be legally and operationally safe for the roads while all our vehicles are maintained and checked regularly to ensure they meet all the road safety standards.

We built this company based on hard work, passion and trust. The future lies in our ability to apply our philosophy of 'borderless logistics' to our clients' solutions and to never be complacent in our position as a company. Our future lies where our ambitions take us.

We are as
limitless,
as we are
borderless.
